SAPERE Talks ........................................................................................................................................................................ 3
SAPERE Talks

- **WP6 - Dissemination, Collaboration & Exploitation - 3rd Year & Final Report** (20/11/2013), Project Presentation — Andrea Omicini
- **SAPERE Methodology: Towards the Final Version** (18/06/2013), Project Presentation — Andrea Omicini
- **WP1 at M32: State and Plans** (18/06/2013), Project Presentation — Mirko Viroli
- **Engineering Confluent Computational Fields: from Functions to Rewrite Rules** (06/05/2013), Talk — Mirko Viroli
- **SAPERE Methodology - The Complete Process** (20/02/2013), Project Presentation — Ambra Molesini
- **SAPERE Methodology: Status & Next Steps** (20/02/2013), Project Presentation — Andrea Omicini
- **SAPERE project (and relevance for CINA)** (06/02/2013), Project Presentation — Mirko Viroli
- **SAPERE WP6 in Y2 – Preview** (12/09/2012), Project Presentation — Andrea Omicini
- **Towards the Analysis & Prediction of Complex System Behaviour in SAPERE** (10/09/2012), Talk — Andrea Omicini
- **SAPERE Methodology Alpha Version** (10/09/2012), Talk — Andrea Omicini
- **Toward Approximate Stochastic Model Checking of Computational Fields for Pervasive Computing Systems** (10/09/2012), Talk — Andrea Omicini
- **WP1 M21. Progresses and Plan** (11/06/2012), Talk — Mirko Viroli
- **SAPERE WP6 Issues** (11/06/2012), Project Presentation — Sara Montagna
- **The simulation alchemy** (08/05/2012), Seminar — Danilo Pianini
- **Pervasive Ecosystems: a Coordination Model based on Semantic Chemistry** (28/03/2012), Talk — Mirko Viroli
- **Self-adaptive Service Ecosystems for Pervasive Computing** (15/03/2012), Seminar — Mirko Viroli
- **SAPERE WP6 Towards M24** (28/02/2012), Project Presentation — Andrea Omicini
- **SAPERE Methodology: A first sketch** (27/02/2012), Project Presentation — Andrea Omicini
- **WP1 M17. Progresses and Plan** (27/02/2012), Project Presentation — Mirko Viroli
- **Alchemist simulator** (27/02/2012), Project Presentation — Danilo Pianini
- **UniBo middleware prototype and eco-laws language** (29/11/2011), Project Presentation — Danilo Pianini
- **WP6 – Dissemination, Collaboration & Exploitation** (15/11/2011), Project Presentation — Andrea Omicini
- **Coordination Models and Technologies toward Self-Organising Systems** (04/11/2011), Lecture — Andrea Omicini
- **Coordination Models and Technologies toward Self-Organising Systems** (31/08/2011), Invited Talk — Andrea Omicini
- **A Co-ordination Approach to Spatially-Situated Pervasive Service Ecosystems** (06/07/2011), Talk — Andrea Omicini
- **A Simulation Framework for Pervasive Service Ecosystems** (06/07/2011), Talk — Danilo Pianini
- **Coordination Models and Languages: From Parallel Computing to Self-Organisation** (04/07/2011), Lecture — Andrea Omicini
- **SAPERE WP6 @ M9** (24/06/2011), Project Presentation — Andrea Omicini
- **WP1 Activities: General state, details on the model, future plans** (24/06/2011), Project Presentation — Mirko Viroli
- **A Prototype of LSA-space** (24/06/2011), Project Presentation — Elena Nardini
- **An application of the WP1 computational model to a real scenario** (23/06/2011), Talk — Sara Montagna
- **Alchemist is a SAPERE-oriented simulator** (23/06/2011), Project Presentation — Danilo Pianini
- **Alchemist is a SAPERE-oriented simulator** (14/06/2011), Project Presentation — Danilo Pianini
- **SAPERE WP6 Short Overall Report — M1-M4** (20/01/2011), Project Presentation — Andrea Omicini
- **WP1-WP2 Boundary. Spatiality in the SAPERE model and in eco-laws** (20/01/2011), Project Presentation — Mirko Viroli
- **WP1 Activities. General state, details on the model, future plans** (19/01/2011), Project Presentation — Mirko Viroli
- **SAPERE: Self-aware Pervasive Service Ecosystems** (14/12/2010), Project Presentation — Franco Zambonelli
- **SAPERE: WP6 - Dissemination** (05/10/2010), Project Presentation — Andrea Omicini
- **SAPERE: WP1 - Model & Methodology** (05/10/2010), Project Presentation — Mirko Viroli
